

Important

To help prevent the spread of COVID-19, please postpone your visit to the museum if:

- You have recently traveled from one of the zones with widespread cases of the virus, including Seattle and Eastside areas.
- You are feeling unwell, having breathing problems or have a fever (if you think that you have the virus, stay at home and call your doctor or local hospital)

In the museum

If the above cases do not apply to you, to protect yourself and others while in the museum, it is important to:

- Stay at a respectful distance from staff members (front desk, display areas, gift shop, etc.) and other visitors
- Avoid close contact with other people (shaking hands, hugging, etc.)
- Regularly wash your hands with soap and water or, if unavailable, use an alcohol-based hand sanitizer gel
- Dispose of used tissues straight away and wash your hands afterwards
- Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
